WHO AM I?

Brazilian, 22 years old. I'm very positive and passionate about technology. I spare no effort to finish the job and I'm always willing to learn whatever it takes. Currently, I am more comfortable with the front end although I'm capable of full stack development.

React
Node.js
Typescript
Python
Git
Linux

EXPERIENCE

Feb – Present	**QA Engineer**	**Atlas Health**

Currently working at Atlas Health assuring high quality coding.

```
Python / React / Node.js / Pytest
```

Mar – Sep 2021	**Web Developer**	**Ink Finder**

Worked on the development of a web application using React as front end, Node.js and typescript on the back end that has integration with Google Calendar. We developed a practical solution of appointment with a tattoo artist, making a better logistic between Tattoo Artist and client.

```
React / Node.js / TypeScript / API / AWS
```

Feb – Sep 2021 Part time	**Intern of Infraestructure and Network**	**Defensoria Pública do Estado de Goiás**

Did an internship on Infrastructure and Network at Public Defense. I've developed a lot of knowledge about Linux, building servers, and maintaining those.

```
Linux / Bash
```

EDUCATION

2018 – Presente	**Bachelor's degree**	**Universidade Federal de Goiás**

Got into the University through ENEM and I'm studying Computer Engineering.

2015 – 2017	**High School**	**Colégio Visão/Olimpo**

Did the first year on Colégio Olimpo and the remaining on Colégio Visão.

2016	**Proficiency English Certificate**	**University Of Cambridge**

Finished English course and got my certificate from University of Cambridge.
